

For us it is less about being successful and more about how we achieve our success. We pride ourselves on providing a challenging yet ultimately rewarding walk and stalk experience on free range game whether it be with bow or rifle. The Family farms of 15 000 hectares (~37100 acres) have been in the family for over 70 years since the 1940s. We make every effort to expose our guests to the freedom of the Namibian bush allowing them to explore the incredible beauty our farms have to offer. See more of how we make your dream adventure come true for less than you probably expect on our website:

IT'S ABOUT THE JOURNEY

"Our goal has been, and will continue to be to provide a quality hunting experience in a private and natural environment while offering personal service that is friendly and professional."

- Andrew Campbell

ACCOMMODATION

Four clean, comfortable twin rooms.

Amazing local catering prepared by our in house chef.

What you hunt is predominantly what you eat.

TROPHY HUNTING

20 x Plains game trophy species available.

45 000 ha of pristine Namibian bushveld as a hunting area.

Free-range game hunted on a walk and stalk basis.

MANAGEMENT HUNTING

7 x Management species available.

Every season game species are accurately counted and based on population, size and number of animals, management species are determined for the season.

PREDATOR HUNTING

Leopard | Cheetah | Brown Hyena
